

D-Pro Veterinary Dental Unit

D-Pro veterinary dental unit provides a variety of functions for veterinarians, such as grinding, polishing, cutting and scaling, and makes daily animal oral health work easy and efficient.

Dental unit can...

- ①. Effectively shorten the treatment time to reduce work pressure and alleviate occupational diseases.
- ②. Shorten the treatment time to reduce the risk of anesthesia.
- ③. Reduce the damage to the alveolar bone and oral mucosa caused by the violent extraction of teeth only with surgical instruments, and reduce the risk of residual roots.
- ④. Provide more flexible dental treatment programs.

Water and electricity separation design to ensure the safety of the equipment.

360 ° handpiece, light in weight, reduces hand fatigue effectively.

High-speed LED handpiece provides bright operative vision.

High quality oil-free air compressor to avoid the trouble of daily maintenance.

20L large capacity air tank ensures pressure balance and long-term supply, and reduces the frequency of air charging.

Automatically drain pollution or water from the air tank, greatly reduces the trouble of daily maintenance for veterinary, reduces the risk of rust, and prolong the lifespan.

Magnetic holder to prevent fine dental tools accidental loss.

The whole machine weighs only 46kg, flexible movement with super smooth casters.
